

POLICY ON PLASTIC BAN

Context: Currently, one of the largest environmental issues is plastic pollution. Plastic manufacturing and consumption have increased dramatically as a result of the convenience and short-term advantages of plastic and plastic products. Over the past century, excessive plastic consumption has outpaced effective trash management, turning it into a global problem. Plastic is a danger that affects not only our health and wellbeing but also the ecosystem. The goal of this policy is to lessen and eventually get rid of plastic pollution. The policy requires institutional action to proactively support the campaign to prohibit the use of single-use plastics.

Principles and Strategies related to Ban of Single Use Plastic

By virtue of this policy, Kokrajhar Govt. College in Kokrajhar prohibits single-use plastic on its campus. Everyone associated with Kokrajhar Govt. College must adhere completely to the plastic ban policy. Let's work together to create a cleaner, greener world free of dangerous plastics by running campaigns and awareness programmes. The following must be adopted by all stakeholders involved under the policy:

- A ban on single-use plastics in campus buildings, hostels, and canteens.
- Hold workshops on and off campus to raise awareness of the negative effects of plastic.
- Refuse to bring anything that won't degrade biologically inside the campus.
- Waste generated should be segregated at the source and the segregated wastes should be sent to authorised waste processing centres, disposal facilities.
- All events organised inside the campus should strictly follow the plastic ban.
